

# WeldComputer

The Technology Leader in Resistance Welding

Proudly Made in the USA!

## Weld with Intelligence. Manufacture with Confidence.

### Capabilities

- Inverter Technology that integrates with AC, Three-Phase DC, MFDC or Three-Phase Frequency Converter Welders
- Highly precise current/heat control regardless of power fluctuations
- Millisecond by millisecond control, monitoring and adaptive feedback
- Standalone monitors to run with existing control
- Wide range of options to best meet application and budgetary requirements

### Benefits

- Upgrade existing welder with minimal investment
- Reduced dependency on destructive testing
- Improved weld quality, reduced failures
- Increased productivity and throughput
- Detailed record of each and every weld for proof of quality
